Feedback

- Create URL for Study1, 2, pilot
- Make it so that people cannot proceed without keying in matric number
- Chat bubbles animation:
  - There seems to be a delay in timing, but this applies uniformly across all chat bubbles? Instead, it should be the case where shorter chat bubbles have shorter duration; longer chat bubbles have longer duration
  - The original duration is fine for the shorter lines of text
  - Chat bubbles are still not appearing one after another
- Font and style of conversation should match Neutral/Woman/Man script. But responses from respondents should always be kept as the "Neutral" font, regardless of condition

Formatting here is currently a bit messy

Please make the name correspond to the condition

Seems like I can only click on one of these radio buttons one at a time. I should be able to click on one (only) for each row.

Evaluation of Experience

RBT BANK

Please answer the following questions about your experience of choosing a bank savings account/home loan plan/life insurance policy with Zan/Michael/Michelle.

To what extent did you find the experience of choosing a bank savings account/home loan plan/life insurance policy...

	Not at all						Very much
